short and long-distance transport*

16th DECEMBER 2020, 10-14h
ONLINE CONFERENCE

Current activities

- Horizon Europe
 - The German presidency of the Council reached a provisional political agreement with the European Parliament's negotiators on the proposed regulation establishing Horizon Europe, the EU framework programme for research and innovation for the years 2021 to 2027 (on 14 December 2020).
 - The text will be submitted to the Council's permanent representatives committee for analysis on 18 December 2020. Following political endorsement by both the Council and the European Parliament, it will be the basis for the future adoption of the regulation at second reading. The regulation cannot be formally adopted before the formal adoption of the long term EU budget 2021-2027, the multiannual financial framework (MFF).

short and long-distance transport*

16th DECEMBER 2020, 10-14h
ONLINE CONFERENCE

Current activities

- Cluster 5
 - The 3rd draft of the cluster 5 work programme is prepared
 - This version includes all available information on topics, budgets and call dates
 - This document still represents work in progress and will be subject to changes (one of the changes will be to align activities with the expected annual budgets, i.e. we expect to shift some activities from 2021 to 2022).
 - The Programme Committee will be asked for its opinion next year

ONLINE CONFERENCE

Role of NCP

- circulate general and specific documentation on the Horizon Europe
- organise information and promotional activities
- promote and raise awareness of benefits for new applicants
- assist in partner search activities
- advise and inform potential applicants and beneficiaries
- enhance synergies with other EU funding (ESIF)
- help to increase the success rate of Slovenian proposals
